

## Election Address – Andrew Roy Miles

### Introduction

I run a Transport Consultancy with my wife Sarah and employ both family and non-family members in the business. The business specialises in turning around Transport businesses and businesses with a transport operation within the business to ensure Regulatory compliance.

I am a Fellow of the Chartered Institute of Logistics and Transport, a Member of the Society of Engineers and a Member of the Institute of Road Transport Engineers, as well as a sitting member of the CBI SME Council and the Freight Transport Associations Great London Freight Council.

### Nomination

My nomination is proposed by IPM John Corneille and I am seconded by Assistant Kanan Barot and Liveryman Dr Simon Davey to which I am grateful and thank them for their encouragement and support.

### Contribution

Since becoming a Freeman and subsequent Liveryman of the company, I have actively sort to introduce people to the livery as well as bring guest to events. This has included my stepson becoming the second Junior Freeman of the company. I have become a member of the Pro Bono and Membership committees and have volunteered for Pro Bono work, I am currently mentoring the CEO of the charity that supports young people with mental health issues.

I have attended numerous events throughout my membership including the many virtual events this year. From the Charity supper to making snacks before a virtual wine tasting on a Friday evening, I love the ethics and camaraderie of the company.

I am fortunate to be supported by my family at many of these events and that support continues with my wish to seek election to the court.

### Goals

Should I be successful in being elected to the Court I will be focusing my attentions on:

- Increase awareness of the Company, the livery movement and how it benefits the City and its members.
- Work towards a structured system of support for people throughout their career into Management Consultancy so that they get the best start and as they grow, they give back to future generations.
- Ensure that the company is a diverse mix of members in the truest form, not just of gender and race but of types and sizes of consulting firms, varying sectors of industry and commerce, and from youngsters considering a career in Management Consulting through to the people who enter the arena as a midlife career change and those who offer decades of experience.
